## PROSPECTUS

---

### FOUNDATION AND CHARTER

St. Ignatius College, an educational institution with literary, scientific and philosophical courses of study, was founded in 1855. It was incorporated by the State of California, April 30, 1859, under the style and title of St. Ignatius College, and empowered to confer academical degrees, with "such literary honors as are granted by any University in the United States."

In September, 1912, the professional branch of Law was introduced into the course, and Evening Classes in Law were begun.

### DIRECTORS AND AIM

The College is conducted by the Fathers of the Society of Jesus. As educators they aim at procuring the development of both mind and heart. They recognize moral training as an essential element of education, and therefore, while striving to give the youth committed to their charge higher mental culture, they spare no effort to form them also to habits of virtue.

### GENERAL REGULATIONS

#### The Scholastic Year.

The scholastic year consists of one session extending from September to June. The session is divided into two semesters, one ending with the mid-year examinations in December and January, the other with the Annual Commencement Exercises in June.

## Admission.

Every candidate for admission must present testimonials of his good moral character. He will also be required to bring a certificate of good standing from the other institutions which he has left. Students not of the Catholic faith are expected to conform respectfully to the religious exercises of the College.

## Examinations and Ordinary Promotions.

The progress of each student and his standing in class are finally determined either by a monthly excellence of ninety per cent. which exempts from examination, or by thorough examinations, which are held at the close of each semester. The annual promotions are decided in the same way either by monthly excellence of ninety per cent., or by averaging the monthly marks of the entire year with those obtained in the examinations. For promotion an average of at least seventy per cent. is required in each of the principal branches.

## Conditions.

A mark of sixty to sixty-nine per cent. (sixty to seventy-four in Law) indicates a condition. A student conditioned in not more than two of the principal branches, will be given an opportunity to bring his credits up to the passing mark by an extra examination which, however, must be taken **before** the opening of the next scholastic year.

More than two conditions in principal branches represent a failure and debar the student from promotion.

## Reports of Class Standing.

Every month reports are sent to parents or guardians informing them of the conduct, class-standing and attendance of their sons or wards. These reports should be examined, signed and returned at once.

## Home-Study and Daily Lessons.

All the endeavors of the Officers and Instructors will fail to insure success unless the students prepare with diligence and constancy their exercises and recitations to be given in class. Parents, therefore, are respectfully urged to see that their sons devote at least **two hours every day** to the study of their lessons at home, and to notify the Director of Studies if this private study has been neglected. Students who come unprepared to recite, or without their written exercises, are looked upon as morally absent, and like absentees, they must bring satisfactory written excuses from their parents to the Director of Studies to avoid censure.

## Regularity and Punctuality.

Regular class begins at nine o'clock. Should any student reach the College after that hour, he will not be admitted to his class without a note from the Prefect of Discipline.

Students must not be absent except for grave reasons, in which case, as also in case of tardiness, a note of excuse from a parent or guardian is invariably required.

Mere absence does not excuse a student from the obligation of preparing his ordinary recitations.

Frequent absence or tardiness, except on account of sickness, is sufficient cause for permanent dismissal.

## Politeness.

The College expects from all its students the manners and deportment of gentlemen, and endeavors to procure the practice of perfect decorum at all times within its precincts. For conduct outside, it does not hold itself responsible. In justice to itself, however, it must take cognizance of any serious misconduct of its students, though committed outside its walls.

## **Discipline.**

Though the government of the College is mild rather than severe, yet for the maintenance of order and discipline, without which good results in mental and moral training are impossible, punctual attendance, strict obedience, assiduous application and blameless conduct are required of every student. Any serious neglect of these essential points subjects the offender to effective correction, and even dismissal, if this be necessary.

## **Religion and Morals.**

To attain the end which the Faculty of St. Ignatius College have set before themselves, namely, the intellectual and moral advancement of their charges, the Catholic students are required to receive the Sacraments of Penance and of the Holy Eucharist at least once a month, and are exhorted to be present at the Holy Sacrifice of the Mass as frequently as possible.

A public instruction on the doctrines of the Catholic Faith is given weekly to all the students, in the College Chapel.

In the classroom two hours each week are devoted to this all-important subject of religious instruction. In this age of pleasure and forgetfulness of God, the Faculty deem the time thus taken from the scholastic work of the classroom a necessary measure for the safe-keeping of their pupils.

As devotion to the Sacred Heart of our Savior is a mighty defense for the innocent and the weak, the students are encouraged to receive Holy Communion on the first Friday of each month, special concessions being made with regard to their late arrival at school on that one day.

## **Withdrawal of Students.**

When the withdrawal of students before the end of the session is contemplated, due notice should be

given to the Director of Studies. Should any student leave of his own accord, or be withdrawn without such notice, or without giving satisfactory reasons, he will not be re-admitted.

## Expenses.

As the institution is not endowed, it is partly supported by the fees paid for tuition. That this support may be received in due time, all fees are payable in advance in monthly installments.

## SCHOLARSHIPS

At present the College has only two Scholarships. One is the Y. M. I. No. 35 Scholarship, which pays the tuition and the book expenses of the holder.

The other is the Tuition Scholarship, which pays the tuition of the holder but does not meet his book expenses.

The Y. M. I. Scholarship becomes vacant in June, 1921.

The Tuition Scholarship becomes vacant in June, 1920.

The High School has one "Unknown Scholarship." It has been bestowed on a poor student who, like the donor, is to remain unknown.

### COMPETITIVE SCHOLARSHIPS

To encourage progress among the pupils of the Parochial Schools, St. Ignatius High School and College offers annually seven Free Tuition Scholarships to the Eighth Grade pupils of the Catholic Schools. The boy who secures the highest average receives a scholarship covering the four years of High School and the four years of College. The next six best are given free tuition throughout the four years of High School.

This year (1920) the competitive examinations were held on Saturday, May 15. Forty-six boys were present, representing twelve schools.

The winners are:

Frank Kirby, St. James' School.....	8 years.
Charles Lynch, St. Paul's School.....	4 years.
Stephen Ward, St. Paul's School.....	4 years.
Edward C. Ritchie, St. Brigid's School...	4 years.
George Flach, St. Anthony's School.....	4 years.
Joseph Henneberry, St. Teresa's School...	4 years.
Harry C. Brady, Mission Dolores.....	4 years.

N. B.—St. Paul's won also the seventh scholarship, but no school is allowed more than two places.

### SCHOLARSHIP REQUIREMENTS

(1) A general average of 85% must be maintained by the holder of a scholarship.

(2) The scholarship may be forfeited by unworthy conduct.

Friends of the High School and College are urged to found one or two more scholarships. Such scholarships are a standing gift to the Institution, enabling it to exist with a little more security. They are also a continual act of generosity and charity in the cause of Catholic Education.

## COURSES OF STUDY

The College embraces the following departments:

The College of Arts and Science;

The College of Law;

The Pre-Medical Course.

# The College of Arts and Science

## ADMISSION TO COLLEGE COURSES

### REQUIREMENTS FOR ADMISSION

All applicants must present satisfactory testimonials of good moral character. A student entering from another college must furnish from that institution a certificate of honorable dismissal before his credentials for scholarship will be examined.

### CREDIT REQUIREMENTS

Candidates for admission to Freshman Year must present credits amounting to fifteen or sixteen units. A unit is the amount of work done in a subject taken four or five times a week for 36 weeks, totaling to 180 recitation periods of forty minutes each.

## METHODS OF ADMISSION

### (a) By a Certificate

Admission without examination is granted students from approved secondary schools. Such students must bring their credentials, which when accepted become the property of the College and are kept permanently on file.

### (b) By Examination

Applicants who are not entitled to enter by a certificate, must take the entrance examination based on a four-year course amounting to sixteen units.

## CONDITIONAL ADMISSION

Candidates who have not their complete number of units, may be admitted conditionally, that is with the understanding that they remove the condition within one year from the date of admission. Their failure to remove condition in that time automatically removes them from the course.

Conditional admission is given for fifteen clear units out of the sixteen required of a candidate for an A.B.

Conditional admission is also given for fourteen clear units out of the fifteen required for admission to the B. S. course.

## ADMISSION TO ADVANCED STANDING

Candidates who transfer from College classes in other accredited institutions will be granted the same standing as at the former institution upon presenting in advance of registration (1) a certificate of honorable dismissal; (2) an official transcript of college credits with specification of courses taken, hours and grades; (3) an official certified statement of entrance credits showing the length of each course in weeks, the number of recitations, the length of recitations and the mark received.

No student will be admitted into the Senior Year of College as a candidate for a degree, after the school year has begun.

## DEGREES

### Baccalaureate Degree

The degrees conferred by the College upon a successful completion of the respective courses are: Bachelor of Arts (A. B.), Bachelor of Science (B. S.), Bachelor of Laws (LL. B.).

The conditions for these Baccalaureate degrees are the following:

(a) The completion of the four-years' course leading to the degree for which the student is a candidate. The candidate for an A. B. must include Latin and Greek among his subjects. The candidate for a B. S. substitutes college French for Greek.

(b) A written thesis approved by the Dean of the College and presented at least four weeks before graduation.

(c) A yearly average of at least 70 in all work accepted in fulfillment of any requirement for the degree.

(d) An oral examination before the Faculty at the end of Sophomore and Senior years.

### COMMENCEMENT HONORS

Diplomas are graded as *rite*, *cum laude*, *magna cum laude*, *summa cum laude*, according to scholarship.

*Summa cum laude* indicates a grade of ninety-five per cent., *magna cum laude* ninety per cent., *cum laude* eighty-five per cent., *rite* at least seventy per cent.

These honors are announced at the commencement in June, and appear in the list of graduates in the annual catalogue.

## ARTS AND SCIENCE SUBJECTS

### 1. CHEMISTRY

#### Freshman

##### (a) General Inorganic Chemistry

Three Credits      Class      Three Hours, Both Semesters.

**Text:** Principles of Chemistry, Hildebrand; Laboratory Manual.

The fundamental laws of Chemistry. A study of the elements and the principal compounds.

Instruction in general Inorganic Chemistry is given to all students. The course is designed not merely to familiarize the student with the principles of the science and with the descriptive chemistry of the elements, but also to constitute an introduction to scientific methods of experimentation, observation and reasoning. The aim is furthermore to teach self-reliance, to inculcate habits of accurate thought and work, and to afford such training as will fit the student to cope successfully with scientific and technical problems.

##### (b) Qualitative Analysis

Two Credits      Laboratory      Four Hours, Both Semesters.

The preparation of elements and compounds. Demonstration of properties.

##### (c) Quantitative Analysis

Two Credits      Class      Two Hours.  
Two Credits      Laboratory      Four Hours,  
One Semester.

The Gravimetric and Volumetric methods.

## **Sophomore**

### **(d) Elements of Organic Chemistry**

Three Credits                      Class                      Three Hours, First Semester.

**Text:** Principles of Organic Chemistry, Norris; Laboratory Manual.

The subjects covered are embraced under these heads: The nature and sources of organic compounds, their isolation and recognition. The Paraffin series with special notice of Petroleum distillates. The Alcohols and their derivatives. The Fats, Sugars, Aromatic compounds, Coal tar products, technology of dyes, Alkaloids, Proteins, Foods.

### **(e) Qualitative Organic Analysis**

Three Credits                      Laboratory                      Six Hours, First Semester.

**Text:** Organic Analysis, Prescott.

In this course are taught the methods of ultimate organic analysis. The preparation of synthetic compounds. The systematic procedures for identifying organic compounds and mixtures.

## **Junior**

### **(f) Physiological Chemistry**

Two Credits                      Lecture and Recitation. Two Hours, Both Semesters.

Two Credits                      Laboratory                      Four Hours, One Semester.

**Text:** Practical Physiological Chemistry, Hawk.

Nature and activity of Enzymes, Starches, Salivary digestion, Proteins, Gastric digestion, Fats, Pancreatic digestion, Intestinal digestion, Products of metabolism and putrefaction, Excreta, Bile, Blood, Milk, Structural tissues. Qualitative and quantitative work on the digestive fluids, urine and milk.

## 2. DEBATING

One Credit. Two Hours, Both Semesters.

Practical oratory and debating is offered the college students in the Senior Philhistorian Debating Society. Strict parliamentary practice is followed. The meetings include declamation and elocutionary reading, criticism, extemporaneous speaking, the knowledge and practice of parliamentary law.

# The College of Law

# THE COLLEGE OF LAW

## ENTRANCE REQUIREMENTS

The minimum required for admission to regular standing is a standard High School Education. The work done by a satisfactory High School Graduate is measured in terms of sixteen units, wherein the expression "unit" is used to indicate a branch which is studied five hours a week for thirty-six weeks.

Unless these credits are obtained by an examination at St. Ignatius, a transcript of the student's record must be secured from the secondary school attended. This record is required whether the student is admitted to Freshman Law or to any other class of law. Such a record becomes the property of the Law School and is kept on file.

### REQUIRED HIGH SCHOOL UNITS

Algebra .....	1	History of U. S. and	
English .....	3	Civics .....	1
Foreign Language .....	2	Electives .....	8
Geometry, Plane .....	1		

### ELECTIVE UNITS

French .....	1-4	Mathematics .....	1-4
German .....	1-4	Spanish .....	1-2
Latin .....	1-4	Science .....	1-4

From the following only two units may be chosen

Book-keeping .....	1
Business Law .....	1-2
Manual Training .....	1-2

A High School Diploma or its equivalent, which certifies that his work has been done, entitles the holder to be admitted as a regular student.

## **SPECIAL STUDENTS**

Special students also are admitted. They are those who have a general training that shall be deemed sufficient to qualify them to take up Law, without, however, permitting them to receive a degree. Such students wish either to specialize in some branch of the Law, or to fit themselves better for commercial or political life.

Special students by successfully complying with the entrance requirements for regular students, may at any time before the completion of the Third Year of Law become candidates for a degree.

## **ADVANCED STANDING**

Credit will be given for work done in any other Law School of recognized standing. No student, however, will be given a degree unless he takes the full fourth-year course at St. Ignatius Law School, and passes the usual examinations, including the oral Faculty Examination.

## **EXAMINATIONS**

At the end of each semester, written examinations in each subject must be passed by all the students of Law.

There is, moreover, an oral examination of twenty-five minutes at the end of the Sophomore Year.

Finally at the end of the Senior Year, an oral examination of thirty-five minutes before the Faculty in the subjects of the entire course of the four years must be passed by the candidate for the degree of Bachelor of Laws.

## **PROMOTIONS**

For a successful examination in any subject 75% is required. From 60% to 74% constitutes a condition. Below 60% is a failure.

If a student be conditioned in one or more subjects, he is entitled to a re-examination which will be given within one week before the opening of the autumn semester. A student cannot be conditioned in more than 50% of his subjects.

If a student pass in all his subjects except one in which he has failed, his failure shall in such a case be deemed a condition, and he shall receive a re-examination.

A real failure necessitates the repeating of the subjects in course.

### **ATTENDANCE**

No student is eligible for any examination, nor is he entitled to credit, unless he has been in attendance at 80% of each of the classes.

### **MENTAL PHILOSOPHY AND ETHICS**

A complete but brief course in Mental Philosophy and Ethics is given during the four years of Law. This course is of obligation for all who have not already completed these studies, or who are not attending the day courses in the Junior and Senior Classes of St. Ignatius College.

### **DEBATING**

The Philalethic House for the First Year Students and the Philalethic Senate for those of the Second Year, organized along the lines of the Federal Congress, meet at 7:30 p. m. on alternate Wednesdays.

Questions of social, historical, civic and national interest are discussed in due form. Practice in public speaking and in Parliamentary Law is thus acquired under the guidance of experienced directors.

Attendance at the meetings is obligatory for First and Second Year Students and optional for those of the Third and Fourth Years.

## DEGREES AND CERTIFICATES

A certificate will be given to Special Students for satisfactory work in the branches on which they have specialized.

The Degree of Bachelor of Laws is conferred on those who have complied with the entrance requirements, and have passed satisfactorily the written and oral examinations above prescribed. Moreover, students who maintain throughout the course a standard of excellence, will receive the degree of Bachelor of Laws **cum laude**, **magna cum laude**, **maxima cum laude**, according as they average 85%, 90% or 95%.

## CLASSES

Classes are held from 7:30 p. m. till 9:30 p. m. on Monday, Tuesday, Thursday and Friday according to the following Class Schedule.

## THE COURSE

The St. Ignatius Pre-Medical Course is a four-year one. This has been decided on for several reasons. The University of California requires a three year pre-medical course, and so our own course must extend over three years at least. It is however most important that those who take up the study of Medicine, should be degree men. Now no College can give a degree except for four years of college work. Again, not all who are ambitious of becoming doctors can enter the profession. Ultimately only the best are admitted. Now the study and application needed to secure a collegiate degree, tests the fitness of the candidate. Finally, the College is rightly anxious that

as many as possible, should profit by a good course in Philosophy, and so extends the pre-medical studies over one more year, knowing that the candidate will gain much in education and lose little in time.

## OUTLINE OF THE SUBJECTS

### (a) General Biology

Three Credits Lecture and Quizz Three Hours  
Two Credits Laboratory Four Hours Both Semesters.

### (b) Vertebrate Zoology

Three Credits Lecture and Quizz Three Hours  
Two Credits Laboratory Four Hours Both Semesters.

### (c) General Embryology

Lecture and Quizz Three Hours  
Laboratory Four Hours

### (d) Histology Technique

The pre-medical students are taught the process of cutting and staining histological sections.

## 2. Chemistry

### (a) General Inorganic Chemistry

Three credits Class Three hours Both Semesters.

Fundamental laws of Chemistry, Study of the elements and principal compounds.

### (b) General Inorganic Chemistry, Qualitative Analysis

Two credits Laboratory Four hours Both Semesters

Preparation of elements and compounds. Demonstration of properties.

### (c) Quantitative Analysis

Two credits Class Two hours

Two credits Laboratory Four hours

One Semester

The Gravimetric and Volumetric methods.

(d) **Elements of Organic Chemistry**

Three credits Class Three hours Second Semester.  
An introductory study of the compounds of carbon.

(e) **Elements of Organic Chemistry—Laboratory**

Two credits Laboratory Four hours Quiz One hour First Semester

A comparative experimental study of the physical properties and chemical reactions of the more commonly occurring classes of organic substances.

(f) **Physiological Chemistry**

Three Credits Lecture Three hours.\*

Two credits Laboratory Four hours  
Two Semesters

(Cf. Chemistry in A. B. Course for fuller statement.)

**3. Economics**

Three credits Three hours Both semesters

Subject matter the same as that in Arts and Science Course.

**4. Embryology**

Four credits Class Two hours Laboratory Six hours One Semester

The phenomena of animal development, fundamental facts of reproduction, comparative embryology and organogeny of the higher vertebrates.

**5. English**

(a) **Freshman English**

Four credits Four hours Both Semesters

Same as Freshman English in Arts and Science.

(b) **Sophomore English**

Four credits Four hours Both Semesters

Same as Sophomore English in Arts and Science.

## 6. Evidences of Religion

- (a) Freshman year
- (b) Sophomore year
- (c) Junior year
- (d) Senior year

One credit Two hours Both Semesters

Subject matter is the same as that in the corresponding years of the Arts and Science Course.

## 7. French

Four credits Four hours Both Semesters

Same as Freshman and Sophomore French in Arts and Science.

## 8. History

Three credits Three hours Both Semesters.

Text: Modern European History—Carleton Hayes.

## 9. Hygiene

One credit Class Two hours First Semester  
Principles of Hygiene and Sanitation.

## 10. Mathematics

Three credits Three hours Both Semesters

Subject matter same as that in Freshman year of Arts and Science Course.

## 11. Philosophy

- (a) Junior year

Five credits Seven hours Both Semesters

- (b) Senior year

Five credits Seven hours Both Semesters

Subject matter same as that in Junior and Senior years of Arts and Science Course.

## 12. Physics

### (a) General Physics

Five credits Class Three hours Laboratory Four hours Both Semesters

Mechanics, properties of matter, heat, sound, light, electricity and magnetism.

### (b) General Physics

Five credits Class Three hours Laboratory Four hours Both Semesters.

Experimental work in mechanics, properties of matter, heat, sound, light, electricity and magnetism, requiring quantitative results. Methods are selected so as to show instructive relation of physical principles, and their adaptation to practice problems.

## 13. Zoology

### (a) General Zoology 1A

Five credits Class Three hours Laboratory Four hours Both Semesters.

An introduction of the facts and principles of animal biology, with special reference to the structure, function and evolution of animal life. The laboratory exercises are based on the examination of living specimens of invertebrates, supplemented by charts.

### (b) General Zoology 1B

Five credits Class Three hours Laboratory Four hours Second Semester.

The behavior, structure and development of animal types, with special reference to the lower vertebrates.

## High School Department

## COURSES OF STUDY

### PURPOSE

These courses, lasting four years, are a preparation for the College. In this preparation the Ancient Classics hold the first place as the most efficient instrument of mental discipline, for it has been found by long experience that the careful study of the Latin and Greek writers is the only means that gives a normal development to all the faculties, forms a correct taste, teaches the student how to use all his powers to the best advantage and prepares him to follow with success the higher studies. Still it must not be thought that other studies universally recognized for their cultural value are neglected. They, too, hold an important place in the curriculum of this High School. Such other studies are the theory and practice of Written and Oral Expression, a thorough training in Mathematics, Physics, Chemistry, and a broad knowledge of History.

### ADMISSION

Candidates for admission into the High School are required to have completed successfully the High Eighth Grade of Grammar School, and to be capable of profitably taking up the Classical Course.

### REGULATIONS

The Students of High School are subject to the General Regulations found on pages ———.

## 1. CHEMISTRY

One Unit. Five Hours, Both Semesters.

**Text:** Principles of Chemistry, Brownlee, Fuller, etc. Laboratory Manual.

This course includes lectures, demonstrations and recitations combined with laboratory. It is designed to acquaint the student with the fundamental principles of the science, to meet the demands of a liberal education and to lay the foundation for more advanced work in College or University, where one year of High School Chemistry is so often either required or recommended.

## 2. CIVICS

A Half Unit. Four Hours, Second Semester.

**Text:** American Government, Magruder.

The local and national Government is largely in the hands of the people, making an intimate acquaintance with our institutions most useful and desirable. The study of the subject is not confined to the class-room, it is carried on with still greater profit in the discussions of the Debating Society.

## 3. DEBATING

———. Two Hours, Both Semesters.

**Text:** Parliamentary Practice, Cushing. Parliamentary Law with Diagrams of Motions, Paul.

Only the pupils of Third and Fourth High are eligible for membership in the Junior Philhistorian Debating Society. All the members take active part in the debates and develop a readiness of speech, a self-confidence and ease, which readily distinguish them from those who do not join this Society.

## 4. ENGLISH

In the English classes, the various modes of composition are taught and practiced to give facility in writing clearly and correctly. It is not the purpose of the

High School to teach poetry, the art of short story writing, the elaborate structure of the essay, or the technique of the drama. Such subjects are ordinarily beyond the capacity of the High School student. The literature in these forms is used to illustrate the matter of the class and to impart and foster literary appreciation in the minds of the students.

The literature assigned to the classes is divided into three sections:

a) **Texts for Detailed Study:**

All of these should be studied in class and be well known, though it may not be necessary, or even practicable, to read each work entirely during class. What is required is: a knowledge of the subject matter and form of each work, with an explanation of the principal allusions; the literary qualities so far as they illustrate the rhetorical principles of the year,—a biographical outline of the authors and an account of their works.

b) **Supplementary Reading:**

These texts must be read by all and should be known as the preceding, but without the same detailed accuracy.

c) **Class Reading for Book Reports:**

Each student is obliged to make one book report each month, but not more than one. The books used for reports are obtained at the Park Branch of the Public Library, whose officials are most anxious to co-operate with the School.

Hence there are two aims in every English class—one is literary facility and the other is literary appreciation. Literary facility is attained by precept and practice; literary appreciation by reading and interpretation.

## FIRST YEAR ENGLISH

(Elementary)

One Unit. Five Hours.

The literary facility to be acquired is a consciousness of correct sentence structure. To this end precept and practice are both directed. There is a great deal of sentence work, both oral and written. Frequent short writings of sentences are given in class, and a weekly composition is assigned to be written at home.

Precepts: Text: Practical English, Lewis and Holic.

Wherein the English Grammar is reviewed and the laws of correct and varied sentence structure are taught.

The literary appreciation sought is the training of the imagination to form *vivid* mental picture.

### AUTHORS:

- a) Texts for detailed study: Sketch-Book, Irving. Tales from Shakespeare, Lamb. Twice-Told Tales, Hawthorne. Selected Poems, Longfellow.
- b) Supplementary Reading: Treasure Island, Stevenson. The Last of the Mohicans, Cooper. Poems and Tales, Poe.
- c) Class reading for book reports; Group I.

## SECOND YEAR ENGLISH

(Elementary)

One Unit. Five Hours.

The literary facility to be acquired is the power to recognize and to write *good* sentences and *good* paragraphs. These must be not merely correct, but really good.

Precepts: Imitation and Analysis, Donnelly, S. J.

The sentence is studied minutely and imitated. By careful phrasing when reading aloud, the ear is made to help the mind sense the harmony of a good sentence.

Paragraphs also are analyzed and imitated. Here unity and continuity are especially stressed.

As precepts alone will not impart much literary facility, frequent short writings are assigned in class and a weekly composition to be done at home.

The literary appreciation to be imparted, is the power to perceive the beautiful and the wonderful in objects (not in words).

### **AUTHORS:**

- a) Texts for detailed study: Three Narrative Poems (Enoch Arden, Sohrab and Rustum, Ancient Mariner); Bunker Hill Oration, Webster; Farewell Address, Washington; Snowbound, Whittier; Vision of Sir Launfal, Lowell; Evangeline, Longfellow; Deserted Village, Goldsmith.
- b) Supplementary Reading: The Spy, Cooper; Ivanhoe, The Talisman, Scott; Tales of a Wayside Inn, Longfellow; Waterfowl, Bryant.
- c) Reading for book reports: Group II.

### **THIRD YEAR ENGLISH**

#### **(Advanced I)**

One Unit. Four Hours.

The literary facility to be acquired, a possession of the internal qualities of style—clearness, fullness of thought, suggestiveness, strength and propriety.

Precepts: Model English, Book II, Donnelly, S. J.

The book covers in a very practical way the qualities of style. Practice is given in Narration and Description.

The teacher seeks to awaken in his pupils a feeling for the power and beauty of language.

### **AUTHORS:**

- a) Texts for detailed study: Short Stories, Merchant of Venice, Shakespeare; Elegy in a Graveyard, Gray; Tale of Two Cities, Dickens; Idylls of the King, Tennyson.
- b) Supplementary Reading: Flight of a Tartar Tribe, Joan d'Arc, De Quincey; Silas Marner, Eliot.
- c) Reading for book reports: Group III.

### **FOURTH YEAR ENGLISH**

#### **(Advanced II)**

One Unit. Four Hours.

The literary facility to be gained is familiarity with argumentation and exposition.

Precepts: Elements of English Composition, Canby and Opdyke.

Frequent writing of speech outlines is given and also the actual composition of the complete address. Twice a year a short story or an essay will be required.

The literary appreciation to be inculcated is: Thought-order, thought-progression.

### **AUTHORS:**

- a) Texts for detailed study: Prose Types of Newman, Garraghan; Julius Caesar, Shakespeare; Addison & Lord Clive, Macaulay; Reply to Hayne, Webster.
- b) Supplementary Reading: Essay on Criticism, Pope; Comas and Lycidas, Milton; Selected Poems of Keats and Shelley.
- c) Reading for book reports: Group IV.

The subject matter is treated in a practical and helpful manner. The subject of Social Science being intimately bound up with religious belief and practice, comes in for treatment, when the Church is considered in its relation with Society.

### **12. SOCIAL SCIENCE**

**Text:** A Primer of Social Science, Henry Parkin-son, D. D.

There is a demand today for correct views on Labor and Capital, and though the High School Student is hardly ready to become a society leader, he is soon to be thrown into the struggle and to be led socially and economically for or against the common good.

The Catholic view of Social Life, of Labor and Capital, Wage and Ownership, is therefore given, with the hope of guiding aright the laborers and owners of the morrow, and of checking the rush of the country towards economic strife.

### **13. SPEAKING (PUBLIC)**

One Hour, Each Semester.

Once each week throughout the four years, each

class is practiced in reading and recitation. Distinct delivery, moderate interpretation and gesture are insisted upon. At the monthly reading of marks, the appointed class is represented by a reader and also by a speaker. Towards the close of the year there is a public contest for a gold medal. The contest is preceded by try-outs and elimination contests, all tending to give the student practice in appearing and speaking before an audience.

### First Year

Clear enunciation and simple gestures. Slow and distinct reading.

### Second Year

Interpretation with the pause and the change of rate. Interpretation in reading.

### Third Year

Feeling and passion in speech with change of tones.

### Fourth Year

Oratorical delivery — the sustained address, the climatic rise, the powerful close.
